What is Global Connect?

Global Connect helps publishers reach more countries by using local Print-on-Demand (POD) printers who have established relationships with booksellers in their markets. This complements Ingram's existing reach from the USA, UK, Australia, France, and Sharjah by adding 11 more markets. Through Global Connect, distributors use POD technology to fulfil demand, helping ensure books are supplied closer to both the reader and bookseller.

Covering nearly 50% of the world's population, Global Connect reaches more booksellers worldwide.

Why use Global Connect?

Global Reach

Make your book available in over 11 countries, covering 50% of the global population, with more countries coming soon.

Local Distribution Channels

Leverage our existing, well-established distribution channels in the local area, including online retail, bookstores, libraries, and relevant organizations.

Print-on-Demand Efficiency

Use Print-on-Demand (POD) technology for rapid delivery, reducing transportation needs and carbon footprint, minimizing logistics issues.

Centralized Management

Manage your global distribution from one platform.

Cost-Efficient Operations

Avoid large upfront costs and inventory maintenance with on-demand printing and distribution.

Title-Specific Market Participation

Participate on a market-by-market basis according to title rights.

How Global Connect Works

As a publisher, this is the simple process of Global Connect:

1

Ensure your agreement is in place for Global Connect

2

Make sure to upload your titles along with comprehensive metadata to our Beyond Publishing platform.

3

Set the local pricing

4

Receive payment upon book sale

What we do to ensure that the program works best for our customers:

All Global Connect networks must align with the capabilities and standards of BPG.

When we receive your pricing and metadata information, we will broadcast it to your chosen market.

Once the customer places an order, we will transmit your book file securely using the one-time-use method to our local network.

Our local network will then print and ship the book to the retailer.

Expand Your Global Reach

Achieve efficient distribution by accessing international booksellers through print-on-demand fulfilment with Global Connect, bringing books closer to readers worldwide.

Things You Should Consider Using:

	Global Connect	Traditional International Distribution
Global Distribution 	Simplified Global Connect offers access to dedicated retail channels across 11 countries, expanding your content reach to a global audience of 3.5 billion.	Complex Effective book distribution requires local market knowledge and strategic partnerships with regional booksellers to meet service-level expectations.
Simplify Your Process 	Streamlined With Global Connect, you set a single US dollar price, and we will take care of the rest.	Complex Managing multiple currencies adds unnecessary complexity to your business.
Lower Environmental Impact 	Minimal Global Connect eliminates the need for international shipping and book storage by utilising printers in the country.	Higher Traditional methods can increase CO2 emissions from international shipping and storage, complicating efforts to adopt sustainable practices.
Risk Mitigation 	Reducing Risk Global Connect removes any fixed overhead costs. There are no returns, no upfront printing or freight costs; all sales are print-to-order.	Challenging Traditional distribution involves high fixed costs, along with the challenges of managing returns, shipping, and storage.

Global Connect FAQs

How do I sign up for Global Connect?

The Global Connect program is part of your Global Agreement, if you have signed a Global Agreement, you can already enable your titles for Global Connect. Otherwise, you can click on the 'Quick Link' tab on your web dashboard marked 'Global Connect Markets'.

How do I add my titles to the Global Connect markets?

By entering a retail price and wholesale discount for each title and each market, Ingram will make your titles available in each current Global Connect market. Pricing provided against a Global Connect market will serve as your permission to distribute the title in that market through Global Connect.

How do I set pricing for my books in different global markets?

Global Connect transacts globally in US Dollars, therefore you provide pricing and discounts for each Global Connect market in USD. This ensures you do not have to calculate multiple currencies and exchange rates. The price information is sent with your books metadata to the Global Connect networks, and they handle the local retail pricing and distribution.

Who determines the retail price?

The Global Connect printer will convert your US Dollar wholesale price into their country's currency. They also factor in their own margin and printing costs to finally determine the selling price for the book for their local market.

Where are the books printed for Global Connect?

Global Connect utilises 11 international POD printers, across Europe, Asia plus South Africa, and Brazil. They all have connections to sales channels, and print your books in the country where the order originated.

How long will it take for a book to be delivered to a reader?

Delivery times can vary but using Global Connect ensures that books reach international readers much faster, often within days rather than weeks due to books being printed in market.

Are the books returnable?

No, all sales are non-returnable through Global Connect.

How do I get paid for book sales?

Every sale made through Global Connect are reported on your account, and payments are made to the publisher 90 days from the end of the month in which the sales are received and reported.

What currency will I be paid in?

All payments to the publisher are calculated in US Dollars and reported out of the US. However, we can pay your sales revenue in the currency you request. The payment currencies supported today are USD, GBP, AUD, EUR.

How often do I receive reporting?

We provide sales reports for Global Connect sales monthly within the existing US POD publisher compensation statements. You can also generate reports from your account. This can be found under Reports, then Compensation. Select the option for the Global Connect Compensation.

How does Beyond Publishing ensure safety of publisher files with the Global Connect printer?

Beyond Publishing performs due diligence on all Global Connect printers and ensures they have a strict IT security infrastructure and internal security policies are implemented. Publisher's print files are sent to Global Connect printers over industry standard encrypted network connections, plus all files are deleted after 7-10 days from the printer server.

Are all the Global Connect printers FSC certified?

Each Global Connect printer complies with current environmental and sustainable policies. They source paper from FSC (Forest Stewardship Council) certified Paper Mills and print on FSC paper or PEFC (Programme for the Endorsement of Forest Certification) paper.

Are all Beyond Publishing POD Book Types and Trim Sizes available from Global Connect printers?

Beyond Publishing ensures that over 95% of Book Types and Trim Sizes can be printed in the Global Connect countries. All printers are capable of manufacturing the majority of standard sized trim sizes, and product types, whether in B&W or Colour, Paperback or Hardback. For further information please check the Global Connect book type matrix at:
